

# TYP 3.69 DATASHEET

## INTERNAL AND EXTERNAL PERGOLA SYSTEM

Horizontal terrace and atrium shading without the bulky supporting structure.

The Typ 3.69 can cover up to 100m<sup>2</sup> with a single mechanism, leaving just slim support cables behind when retracted. Fixed to each end of the opening, no side-fixings are required. A practical solution for giant spaces where style, reliability and durability are all essential. A choice of flat or festooned fabric panels and unlimited colour finishes make it suitable for any project.
